**PSBU SDG 17 Policy: Partnerships for the Goals**

**EXTERNAL MEMEBERSHIPS & AACREDITATIONS**

**Introduction**

Preah Sihamoniraja Buddhist University (PSBU) recognises that sustainable development cannot be achieved in isolation. In alignment with Sustainable Development Goal 17: Partnerships for the Goals, PSBU commits to fostering meaningful collaborations at local, national, and international levels. Our partnerships extend beyond formal agreements, becoming vehicles for knowledge exchange, mutual growth, and the strengthening of global education systems.

**Commitment to External Accreditations and Memberships**

PSBU has actively sought and obtained external accreditations and memberships with globally respected organisations. These affiliations affirm the quality of our academic provision while creating opportunities for collaboration, benchmarking, and continuous improvement. They include:

- **Accreditation Service for International Schools, Colleges and Universities (ASIC)** – demonstrating international credibility and recognition of quality.
- **World Education Services (WES)** – supporting student mobility and recognition of qualifications worldwide.
- **International Network for Quality Assurance Agencies in Higher Education (INQAAHE)** – contributing to global dialogues on quality assurance.
- **International Association of Universities (IAU)** – enabling PSBU to participate in international networks of higher education institutions.
- **Times Higher Education (THE)** – premier membership connecting PSBU with world-class universities and research networks.
- **International Education Accreditation Council (IEAC)** – supporting PSBU's standing as a quality-focused international university.
- **Accreditation Committee of Cambodia (ACC)** – ensuring compliance with national higher education quality standards.
- **Association to Advance Collegiate Schools of Business (AACSB)** – affirming PSBU's commitment to the highest global standards in business education.

Through these memberships and accreditations, PSBU actively participates in global higher education conversations, positioning itself as both a learner and a contributor.

**Strategic Collaboration with EBS Global**

A central pillar of PSBU's partnership strategy is its collaboration with EBS Global Solutions (Sri Lanka). This strategic alliance has facilitated the expansion of the PSBU International Project, enabling thousands of students from Sri Lanka and beyond to access higher education opportunities through PSBU.

Date: .....

The partnership has:

- Strengthened PSBU's international student base, bringing diversity and cross-cultural exchange to the university.
Expanded pathways for certificates, diplomas, and bachelor's degrees, ensuring greater access to quality higher education in Sri Lanka and internationally.
Created a sustainable model for internationalisation that benefits students, educators, and local communities alike.

Policy Goals

To ensure alignment with SDG 17, PSBU will:

- Strengthen Global Networks - Continue to pursue new memberships and accreditations that enhance quality and global reach.
Expand International Partnerships - Broaden collaborations with universities, NGOs, and industry partners worldwide.
Support Student Mobility - Build pathways for international students to study at PSBU and for PSBU students to access global learning opportunities.
Promote Joint Research and Projects - Engage in cross-border academic collaborations addressing shared global challenges.
Advance Regional Education - Work with EBS Global and other partners to expand access to higher education across underserved regions.

Accountability and Review

The Office of International Affairs, in collaboration with the PSBU Quality Assurance Office, will oversee the implementation of this policy. Annual reviews will monitor progress in partnership expansion, student diversity, research collaborations, and accreditation milestones.

Conclusion

PSBU understands that strong partnerships are the foundation of sustainable development. By cultivating international accreditations, engaging in meaningful collaborations, and leveraging strategic alliances such as that with EBS Global, PSBU positions itself as a university that not only benefits from global networks but actively contributes to them. Through these partnerships, PSBU ensures that its students, staff, and communities are empowered to play their part in building a more equitable and sustainable world.
